EcoVadis

In 2024, our company FORTISCHEM a. s. was awarded a silver medal from the internationally recognized platform, EcoVadis, for sustainability and corporate social responsibility. In the evaluation, we achieved a score of 87%. This result places us among the top 15% of companies assessed by EcoVadis in the past 12 months.

EcoVadis evaluates over 85,000 companies worldwide and includes 21 sustainability criteria across four areas: environment, labor and human rights, ethics, and sustainable procurement and public tendering. The requirements are continuously updated and become more stringent for the evaluated organizations.

FORTISCHEM a. s. is included in the EcoVadis evaluation under the category of manufacturing basic chemicals, fertilizers and nitrogen compounds, plastics, and synthetic rubber. We obtained the EcoVadis certificate based on an assessment of sustainable business practices by EcoVadis, a tool founded on international standards, the fundamental principles of the UN Global Compact, requirements of the International Labour Organization (ILO), standards of the Global Reporting Initiative (GRI), and the ISO 26000 standard. This is an ongoing process of evaluation and improvement in line with our future plans.
